

RLP SHORT DURATION GLOBAL HIGH YIELD FUND FACTSHEET

June 2024

Objective

Aim: The fund aims to outperform its benchmark, the SONIA GBP 3 Months Index by 2% per annum over rolling three year periods.

Investment process: The fund invests a large portion of its assets in short maturity sub-investment grade bonds (those of lower credit quality) issued by companies domiciled in the UK, Europe, Africa, Asia and the Americas. The fund may also invest in short maturity investment grade securities (higher credit quality). It may also invest in short maturity bonds issued by European governments and government related agencies. The fund may use financial derivatives, but for efficient portfolio management purposes only.

Management style: Active

Source: Lipper, as at 31.05.2024. All performance figures have been calculated net of the Fund Management Charge applicable to the fund.

The fund volatility figure shown is the annualised standard deviation of the monthly returns on the fund over a 3 year time period to 31.05.2024. Standard deviation is a measure of the spread of monthly returns around the average (mean) return. A higher volatility figure indicates that the fund has produced a wider range of returns over the three year period while a fund with a lower volatility figure has been more stable.
