

RLP JAPAN TILT FUND FACTSHEET

January 2026

Objective

Aim:	The fund aims to deliver returns in line with the benchmark, while looking to achieve carbon intensity of at least 30% lower than that of the Index and considering a company's ability and willingness to transition and contribute to a lower carbon economy.
Investment process:	The fund invests in the shares of Japanese companies from all economic sectors. From time to time, the fund may invest in cash and other investments the manager considers appropriate. Responsible investment, and environmental, social and governance insights are incorporated into the investment process.
Management style:	Passive

Benchmark	-	12.31	6.26	7.86	6.99

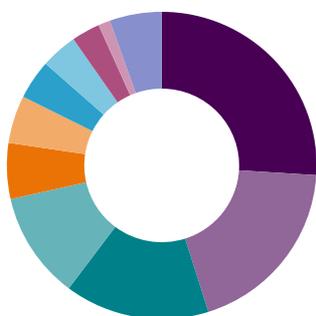

Source: Lipper, as at 31.12.2025. All performance figures have been calculated net of the Fund Management Charge applicable to the fund.

The fund volatility figure shown is the annualised standard deviation of the monthly returns on the fund over a 3 year time period to 31.12.2025. Standard deviation is a measure of the spread of monthly returns around the average (mean) return. A higher volatility figure indicates that the fund has produced a wider range of returns over the three year period while a fund with a lower volatility figure has been more stable.
